

ASSETS ERC-721 token ICO – NFTs marketplace

Create an NFT collection of your own collectibles or allow your users to create and trade NFT items.

NFT Token Marketplace with Royalties. Advanced ERC-721 Marketplace A standard ERC-721 token with buy, sell, auction, royalties and token payments.

[ERC-721](#) is a standard for non-fungible tokens (NFT) or deeds. NFT are useful to represent digital or physical assets that cannot be divided, for example:

Properties (houses, art pieces)

Virtual collectibles (virtual pets, cards)

“Negative value” assets (loans, burdens, and other responsibilities)

But NFT is not only about kitties. There are all kinds of virtual assets. [OpenSea](#), one of the biggest Marketplaces for NFT, has thousands of assets from Virtual Worlds to Football Fantasy Cards.

During late 2020 and 2021 the NFT market has reached incredible levels of monetization in different areas including arts, music, memes, tweets and all kinds of NFT.

One of the most famous ERC-721 token is the CryptoKitties and Beeple.

The most expensive CryptoKitty to date is [Dragon](#), with a price of 600 Ether (USD 232K value at the moment of writing).

One of the most notable ones was the Beeple, [Everydays – The First 5000 Days](#) sold at Christies auction for more than 69M\$

Key NFT market figures

Token Economics

The Reserve Foundation will be decided by the stakers of how it should be distributed into the market and how to utilize it, which will prepare for our semi-governance system.

Architecture

Roadmap

Q2 2022

Testnet launch

- Deploying on Ropsten for early users and alpha testing.
- Successful presale of the ASSETS token ICO at all the public and closed fundraising platforms

Q3 2022

Launch on mainnet

- Launching assets.top NFT market place to mainnet!
- Sale of the ASSETS token ICO at all the public and closed fundraising platforms
- First invite-only demo of assets.top NFT market place

Public launch

Q4 2022

- Public launch of assets.top NFT market place
- Close of ASSETS token ICO

DAO launch

Q1 2023

- Launch of the DAO with governance
- Launch of the mobile apps
- Launch of assets store including fiat on-ramt

Governance

At assets.top, governance will be decentralized. Token holders have voting rights to the network's development. Voting rights in the DAO will be represented through the ASSETS token, launching together with assets.top, in Q2 2022.
